

## About NABPAC...

*The National Association of Business Political Action Committees (NABPAC)* was founded in 1977 and is the sole national organization dedicated to promoting, defending and professionalizing PACs and political action professionals.

**NABPAC is *not* a PAC, and does not contribute to candidates – it is a trade association** for corporations and business associations. Our goal is to advance the interests of our membership and protect the rights of millions of Americans who participate in democracy through voluntary contributions to a PAC. NABPAC also provides comprehensive membership services to PAC and grassroots professionals through continuing educational workshops, annual conferences, informative publications and peer-to-peer advising. Membership consists of over 750 PAC and government affairs professionals from more than 215 corporations and associations throughout the country who represent some of the smallest and largest PACs. **NABPAC members collectively accounted for more than \$195 million in PAC receipts during the 2016 election cycle.**
